

## FACULTY POSITIONS IN THE DEPARTMENT OF CHEMISTRY AT NATIONAL CENTRAL UNIVERSITY (TAIWAN)

The Department of Chemistry at National Central University invites applications for tenure-track faculty positions at all levels and the research specialties of applicants focusing on the following fields will be prioritized:

[1] Physical chemistry

[2] Polymer chemistry

[3] Inorganic and catalytic chemistry.

For information about our Chemistry program, please refer to <http://www.chem.ncu.edu.tw/>. Successful candidates are expected to develop a strong and externally funded research program that involves training graduate (M.S. and Ph.D.) and undergraduate students, while candidates for faculty positions are preferably capable of offering undergraduate and graduate chemistry courses in both English and Chinese. The applicant must have a Ph.D. degree in Chemistry or Materials Science related fields. The application documents should include a copy of diploma, curriculum vitae (CV) with a publication list, teaching plan and philosophy, research plan, and three letters of recommendation (the recommendation letter(s) from his/her Ph.D. dissertation advisor(s) is required). All the aforementioned documents should be e-mailed to [ncu5901@ncu.edu.tw](mailto:ncu5901@ncu.edu.tw). The starting date is February 1st, 2023, and the positions are open until filled. All applications should be received by **August 31st, 2022**.
